

# DESIGN DEVELOPMENT

## WHY?

CBA is not content to simply react to changing industry standards of care; our expressed goal is to lead the way in defining that standard in our industry. We endeavor to accomplish this by diligently looking inward to examine our processes and standards to more fully leverage current / future technologies, as well as the talent and vast knowledge base of our CBA Family. Our overarching **WHY** continues to be fueled with a deep desire to enhance how we **Create, Communicate and Collaborate**.

## DELIVERABLES

- » Design Development Guideline Booklet
- » Titleblock Redesign
- » Consultant DD Deliverable Guidelines
- » Updated revit template
  - Associated workflows

## SCHEDULE

*All Deliverables - End of Third Quarter*

*Updated Titleblock Proposal - For Review at Management Meeting on March 13*

*Coordination Meeting with BP - Prior to end of First Quarter Manual Release*

## CHALLENGES

- » Varying levels of completion
- » Consultant buy in + cooperation
- » CBA Team Training
- » Educating Owner's Consultants on our requirements
- » Coordination with BP
- » Coordination with Intranet (Claramentis)
- » Privacy of Intellectual Property

## BENEFITS

- » Earlier coordination of project team
- » Prevention of later rework
- » Sign off from client at earlier stage
- » Company consistency with Brand Standard
- » Our previous work flow brought consultants on at DD. With our new process, consultants are on board at SD.
